The academic staff members listed below are proposed as thesis jury members in accordance with the **Jury Selection Rules** set out below, in order to conduct the Master's Thesis defence examination for the student of our department whose details are provided above.

The master's thesis defence examination panel is proposed to include at least one associate professor or professor.

There is no conflict of interest/conflict of interest between the supervising academic staff member and the external jury members proposed from outside the university (e.g., being the thesis supervisor/student, having a close family relationship, etc.).

A jury member has been proposed from a different scientific field than the one in which the work will be carried out, both from within and outside the University, and the justification is provided in the appendix.

All jury member proposal fields have been completed in full (incomplete forms will be returned for correction).
