Wildlife Ecology and Conservation

The mission of the Department of Wildlife Ecology and Conservation is to foster education, expand knowledge, and reward scholarship, using multi-disciplinary approaches, for the purpose of understanding, managing, and conserving biological resources. The primary goal of our teaching, research, and extension programs is to develop and communicate the knowledge necessary for enhancing the conservation and management of wildlife and their habitats for the greatest aesthetic, ecological, economic, and recreational values.

<https://www.wildlife.uni-freiburg.de/>

The screenshot shows the homepage of the Wildlife Ecology and Management department at the University of Freiburg. The header is dark blue with the university's name in white. Below the header, there is a navigation menu on the left and a main content area. The main content area features a large image of a parrot with its beak open. To the right of the image is a 'News' section with three items: 'Young Scientist Award for Marufa Sultana' (31.08.2017), 'Voluntary field assistants wanted!' (15.10.2015), and 'FRIAS Post-Doc Fellowship to Luca Corlatti' (13.10.2015).

<https://tu-dresden.de/bu/umwelt/forst/wb/wildoekologie>

The screenshot shows the website for the Chair of Wildlife Ecology and Management at TU Dresden. The header is white with a navigation menu containing 'THE CHAIR', 'STUDIES', 'RESEARCH', 'COOPERATION', and 'MEDIA'. Below the header is a large image of a herd of water buffalo in a river. Overlaid on this image is the text 'LECTURESHIP FOR WILDLIFE ECOLOGY AND MANAGEMENT' and a red button labeled 'LEARN MORE'. To the right of the main image is a smaller image of a wolf. The TU Dresden logo and name are visible in the top right corner.

https://forschung.boku.ac.at/fis/suchen.orginheit_uebersicht?sprache_in=en&menue_id_in=201&id_in=H832

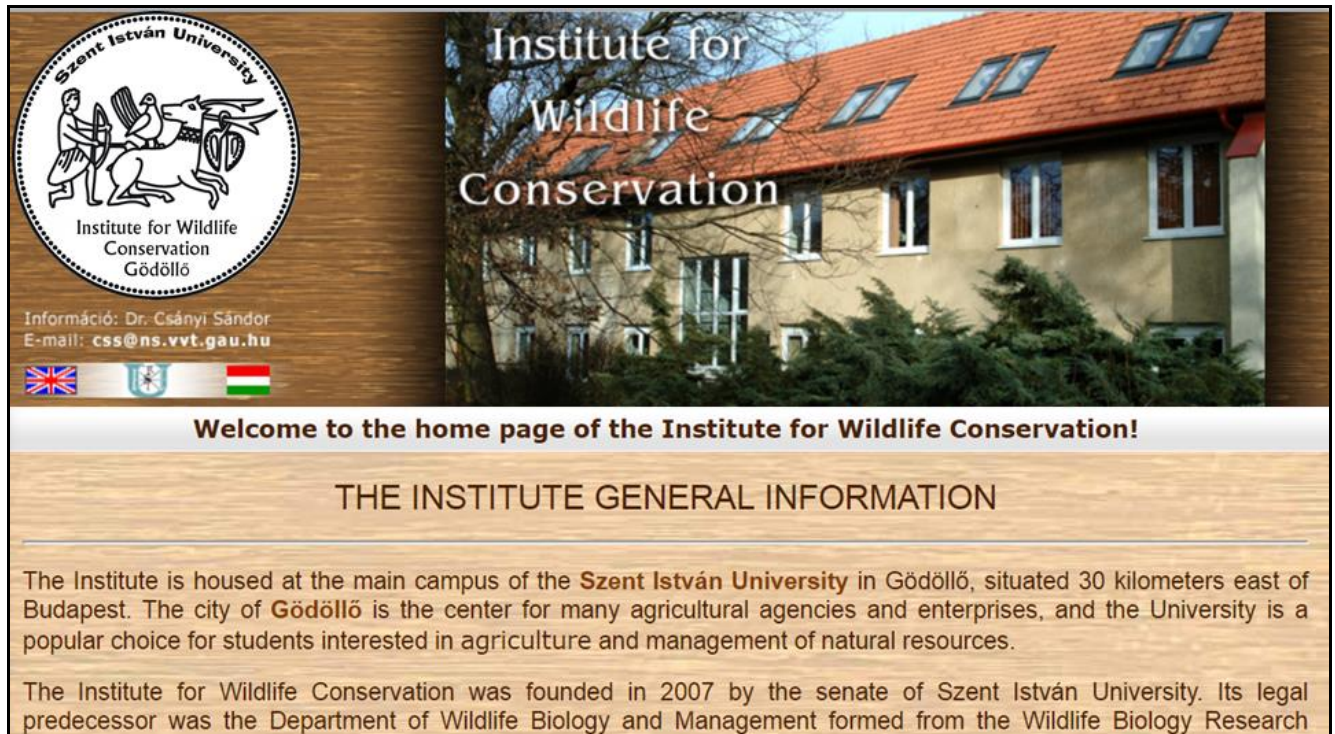

The screenshot shows the FIS (Forschungsinformationssystem) interface. At the top, there are navigation icons and the BOKU logo. The main header includes the text "FIS Forschungsinformationssystem" and "Universität für Bodenkultur Wien University of Natural Resources and Life Sciences, Vienna". Below the header, there are links for "Print view", "Deutsch", "Contact", "Data entry", "BOKU startpage", and "Open Access". The main content area is titled "Institute of Wildlife Biology and Game Management" and features a profile for "Univ.Prof. Dipl.-Biol. Dr.rer.nat. Klaus Hackländer". The profile includes his title, address (Gregor-Mendel-Straße 33, A-1180 Wien), email (iwj(at)boku.ac.at), phone number (+43-1-47654-83200), and website (http://www.iwj.at). A "Mission Statement" section follows, describing the institute's focus on studying and teaching the ecology and management of wildlife and its habitats, with a list of stakeholders including hunting, fisheries, nature conservation, tourism, agriculture, forestry, water management, and land use planning.

<https://www.wabo.boku.ac.at/ife/>

The screenshot shows the website for the Institut für Waldökologie (IFE) at BOKU. The header includes the BOKU logo, a search bar, and navigation links for "Suche", "English version", and "Login". The main navigation menu includes "Studierende", "Studieninteressierte", "Forscher/innen", "Mitarbeiter/innen", "Öffentlichkeit", and "Alumni". The main content area is titled "Institut für Waldökologie (IFE)" and features a "Leitung und Sekretariat" section. This section lists the "Leiter" (Univ.Prof. Ph.D. Dr. Douglas L. Godbold) and the "Stellvertreter" (Ao.Univ.Prof. Dipl.-Ing. Dr.nat.techn. Torsten Winfried Berger). Below this, there are two more "Stellvertreter" positions, each with a placeholder image.

Welcome to the home page of the Institute for Wildlife Conservation!

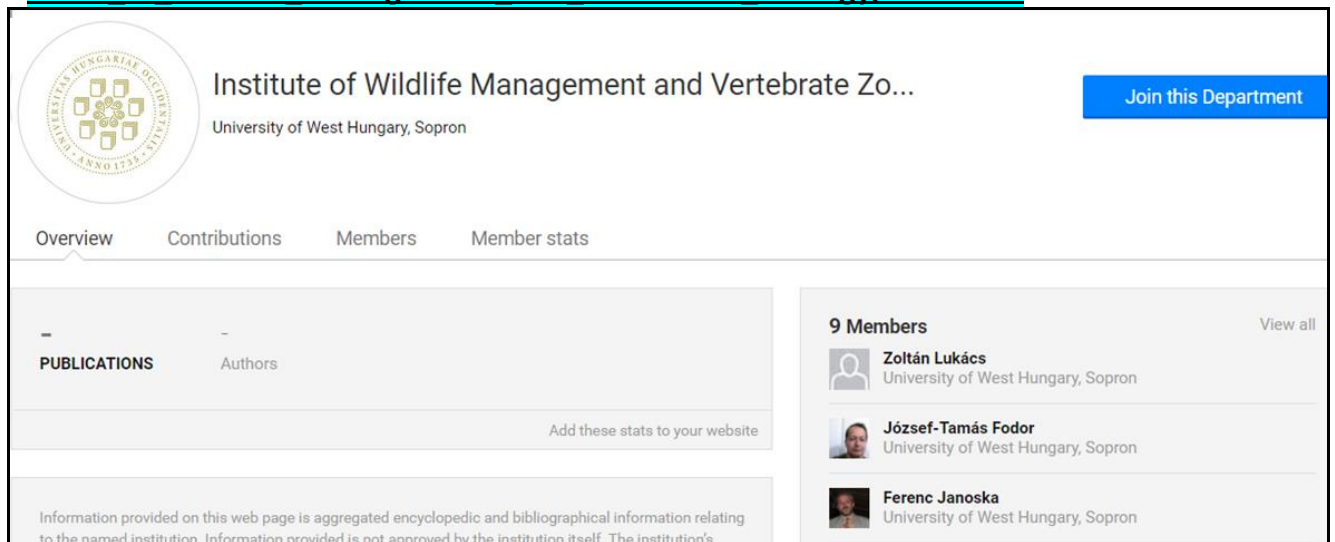

THE INSTITUTE GENERAL INFORMATION

The Institute is housed at the main campus of the **Szent István University** in Gödöllő, situated 30 kilometers east of Budapest. The city of **Gödöllő** is the center for many agricultural agencies and enterprises, and the University is a popular choice for students interested in agriculture and management of natural resources.

The Institute for Wildlife Conservation was founded in 2007 by the senate of Szent István University. Its legal predecessor was the Department of Wildlife Biology and Management formed from the Wildlife Biology Research

Department of Zoology

The Department of Zoology was established in 1937 as a complex of two departments: the Department of Invertebrate Animals Zoology and the Department of Vertebrate Animals Zoology. In 1963 the departments merged into one body — the Department of Zoology. Such scholars as Ya.P. Sheikhanovtsev, V.P. Romanova, S.Ya. Veysig, B.V. Dobrovolsky, F.D. Mordukhay-Boltovskoy, V.A. Vodyanitsky, A.G. Tomilin, N.N. Arhangelsky, N.S. Oleynikov, Yu.M. Rall, V.S. Petrov, A.N. Probatov, V.A. Martino, V.S. Baygusheva, B.A. Kazakov and others worked at the Department at different times of its existence.

Nowadays the Department includes three structural bodies: the Zoological Museum, the Biological Station (Nedvigovka village) and the Laboratory of Ecological Monitoring located on the territory of the student camp 'Limanchik' (Abrau-Durso, Novorossiysk).
